The idea, in context

01 THE PROBLEM

Small teams use disconnected tools and spend time reconciling routine handoffs.

03 TARGET CUSTOMER

Small service businesses managing repeatable internal workflows.

02 THE PROPOSED SOLUTION

A workflow workspace with bounded AI assistance and accountable human approvals.

04 BUSINESS MODEL

Illustrative per-team software subscription; pricing and retention require customer research.

Funding & the questions to test

SYNTHETIC REVIEW NOTES

Demo reviewer A · 4/5

Human approval is built into the proposed workflow. Which single workflow will prove measurable customer value first?

Demo reviewer B · 4/5

A subscription model fits the proposed recurring use. How will the team test retention and protect sensitive business data?
